UO POLICY LIBRARY
NUMBERING SYSTEM

The University of Oregon Policy Library is divided into five volumes, each comprising individual chapters of related policies. Each policy has a unique index, which consists of three identifying components separated: the volume, the chapter, the policy number. (E.g. 00.000.000 → volume.chapter.policy).

Please note that during the governance transition the policy number portion of the index will be the OAR, UO Policy, IMD, etc. Eventually all policies will be given a new number.
