RELATED STATUTES, REGULATIONS, POLICIES, ETC.
List known statutes, regulations, policies (including unit level policies), or similar related to or impacted by the concept. Include hyperlinks where possible, excerpts when practical (e.g. a short statute), or attachments if necessary. Examples: statute that negates the need for or requires updates to an existing policy; unit level policy(ies) proposed for University-wide enactment; or existing policies used in a new, merged and updated policy.
Also, proposed for repeal: Return of Overhead Charges on Continuing Education and Designated Operations Activities, http://policies.uoregon.edu/policy/by/1/06-finance-and-business-affairs/return-overhead-charges-continuing-education-and-designa

STATEMENT OF NEED
What does this concept accomplish and why is it necessary?
The university, in support of its operations, has a long-standing and transparent practice and process for determining, evaluating and assessing fees for overhead costs (such as administrative costs, utilities, etc.) to auxiliaries, continuing education and designated operations funds. We recommend repealing this policy which, formerly an OAR, states that the university engages in this practice. The practice of charging overhead need not be documented via a university policy.

AFFECTED PARTIES
Who is impacted by this change, and how?
Units with auxiliary funds and other non-General and education funds that are charged administrative overhead.

Text of Current Policy: Recommended for repeal

Charging Administrative Costs to Auxiliary Enterprises

Reason for Policy:
This policy outlines the University’s position with regard to charging administrative and physical plant costs to auxiliary enterprises run by the institution.

Entities Affected by this Policy:
Finance and Administration; auxiliary employees

Enactment & Revision History:
Technical revisions enacted by the University Secretary on September 2, 2015.

Became a University of Oregon Policy by operation of law on July 1, 2014.

Former Oregon Administrative Rule Chapter 580 Division 11, Section 0045.

Policy:
Charging of Administrative and Physical Plant Costs to Auxiliary Enterprises

(1) A proportionate share of the University’s accounting, overhead and administrative costs are apportioned among the auxiliary enterprises in accordance with University policy. The basis for apportioning institutional accounting and administrative costs is determined by the University.

(2) In recognition of use of student centers, housing, food service buildings, recreational buildings and intercollegiate athletic facilities for instructional and public service programs, the University may fund
from education and general services resources a proportionate share of the physical plant costs of operating and maintaining these auxiliary enterprises. Such funding is generally apportioned according to use and space except that education and general services resources normally shall not be used to support such revenue-producing areas as food service, bookstore, barber shop, game room, housing and other similar areas that should be self-supporting. The basis for apportioning institutional physical plant operation and maintenance costs shall be determined by the University.
